

# Evaluating the Impact of a Policy Strategy

See the following list of key questions to consider when developing your evaluation plan.

01

**Who initiated the policy process and why?**

02

**Which partners were involved in the policy process and when? Which partners were not involved and why?**

03

**Were the expectations of the partners fulfilled? If not, why not and for what reasons?**

---

04

**What difficulties arose during the policy development process and how were they addressed?**

---

05

**How were responsibilities assigned and coordination mechanisms decided?**

06

**What were the results of the different meetings organized during the policy development process?**

07

**Was the process of engaging partners, educating decision makers, and informing policy successful?**

08

**How was the implementation of the policy communicated to the community?**
